According to unverified reports, Mr. Moore had this feline trained so that when he went squirrel hunting, the cat would take to the trail better than a dog. This cat would tree a squirrel, so reports go, bark and then go up the tree to chase the squirrel out on a limb for its master to shoot. What was so good about the animal was that it always stayed behind the tree trunk and never got in the line of fire.

Mr. Moore valued his cat

Ids for supplies were the main items of business at the commissioners court meeting in Enterprise Monday.

An agreemen between the state and ccunty was signed on the river road out of Elba. The county agreed to survey, grade, and drain from Ino south to the Geneva County line, and furnish the right-of-way and construction engineering without cost to the state. The state will black top it.

The state will grade, drain, asse and black top the end of the road starting at the swim ming pool in Elba, south to the payement at Ino.

Now I lay me down to sleep . . .

THE hair so like young corn silk draws appealingly 1 back into the funny little pony tail. Long lashes droop demurely over eyes in which, all day, small lightning fires of mischief flared and flashed. A chirrupy little-girl treble quavers the words . .

"God bless Mommy . . . God bless Daddy . . ." You listen. In this moment you understand truly why you were put upon this earth. And as you hear your little girl at her prayers what wouldn't you do to keep her world always warm and confident and secure? Give love? Of course—first and always!

But, because you've grown up and grown wise in a tough world, you know you have to give material prorection, too. And one of the finest forms of material protection is a steadily growing pile of United States Series E Savings Bonds!

Bonds pay good interest -3%, compounded semiannually, when held to maturity. They'll go on earning for as long as 19 years and 8 months, if you wish, paying you back 80% more than you invested!

Bonds offer the world's easiest and surest way to save when you invest in them through the Payroll Savings Plan. On this Plan you can pick any amount you wish (as little as a couple of dollars a week) and have your company's pay office save it out of each check. This is invested in Bonds which are turned over to you. And you'll find you can save successfully no matter how many times you may have tried before and failed. You can also invest in Bonds automatically and regu-

larly where you bank. Your little girl, or your little boy, needs all the protection you can give - now. Build it for them, with safe,

sure money-earning United States Savings Bonds!
